Description of Project & Map

Mill Creek Pool & Splashpad Improvements

This project will assess the pool basin and include improvements to Mill Creek Pool including removing and reconstructing the bathhouse, plumbing, and a new splashpad. The proposed new bathhouse will include restroom amenities for pool and park visitors. This project will also study the overall Mill Creek Park as it relates to the pool, site connectivity within the park as well as to downtown, and assess ways to improve general safety for park visitors.
