- G.** Consideration of an agreement with Construction DesignWorks, LLC for design and construction of the Temporary Downtown Library Project, PN 6-C-001-20.

Councilmember Mickelson stated he wanted this item pulled to add a quick comment about this. Mr. Mickelson stated he does plan to support this project, however he does believe it kind of demonstrates a negotiation failure on the part of the city. Mr. Mickelson stated on December 17 of last year the previous council approved the ten-dollar sale of public land, the old library, and this land was worth approximately \$600,000. Mr. Mickelson stated had we sold that land for a 50% discount at \$300,000 we could have paid 100% for this new project. Mr. Mickelson stated this would have been a better use of the taxpayer dollars to work with the developer, try and get a little bit better deal out of this so that we could not turn around and immediately ask them for another \$300,000 of taxpayer dollars for a temporary library. Mr. Mickelson stated he thinks it was a failure of negotiation and a poor use of taxpayer dollars. Mr. Mickelson stated we need this downtown library, but he thinks we could have achieved it with a better deal with the developer. Mr. Mickelson stated he thinks we need downtown development, we need a downtown library, but he feels more conversation could have been had around how can the developer contribute to the better downtown and part of that would have been contributing to this temporary library. Mr. Mickelson stated we need the library, so he plans to support it. Mr. Mickelson stated he hopes we have better conversation up front and get a better deal with developers to help the taxpayers to not have to shoulder the burden themselves because basically they got hit twice, once on the sale of the land,

which he understands incentives are important and the 50% discount is still incentivizing the development, but that 50% discount could have been turned around and paid for this buildout. Mr. Mickelson stated that was his comment and he plans to support as a vital part of the downtown community and keep that downtown library without any delay in service. Mr. Mickelson stated he is ready to vote on it, but he wanted to add that comment.

Motion by Bacon, seconded by Vogt, to approve Consent item G. The motion carried by the following vote:

Yes: Brownlee, Campbell, Mickelson, McCoy, Bacon, Vogt, and Copeland

- H. Consideration of Engineer's Estimate, acceptance of bids and award of contract to Phoenix Concrete, LLC for construction of the 2020 Local and Collector Street Mill and Overlay Project - Group A, PN 3-P-005-20. Approved
- I. Consideration of Resolution No. 20-1016 authorizing funding for Pflumm Road, 143rd to 151st, Improvements Project, PN 3-C-114-20. Councilmember Mickelson had questions about the cost of the land for this project and asked where exactly it is located.

Public Works Deputy Director, Beth Wright, provided a map and identified the area in question.

Councilmember Mickelson asked why the cost was so high compared to other projects and Ms. Wright said that it is because of the narrow and unimproved section that would need to be built from the ground up. Mr. Mickelson asked why it was decided to build four lanes and Ms. Wright said it was because they were looking at future needs.

Councilmember Mickelson acknowledge this road is in poor condition but questioned if this is a project that should be considered at this time for the cost.

Councilmember Bacon mentioned when this was approved as part of the CIP in the Fall, the Council knew projects could change and he was open to delaying a short time to evaluate other options.

Councilmember Brownlee expressed her concerns regarding the cost of the project. She indicated she appreciated Mr. Mickelson's questions but had been glad other projects in the past had been fully built out and not accomplished in stages. However, Ms. Brownlee supported delaying and utilizing the upcoming retreat to have more discussions.

Councilmember Vogt pointed out the decision was originally made not to make College Blvd. four lanes and it was a short time later that four lanes were necessary. She wanted to caution the Council since they are confident of the growth in this area and what will be needed. She said it would ultimately cost more.

Public Works Deputy Director, Beth Wright, mentioned some of the factors in determining this project were traffic flow, lack of sidewalks to elementary schools, crash rates, and future traffic predictions.

Councilmember Vogt asked what would happen if this was not approved and Ms. Wright said the project would not move forward.

City Manager, Michael Wilkes, indicated this has been in the CIP for several years and that there is also federal funding that has been approved for this project.

Councilmember McCoy said that he has had citizens ask when Pflumm Road was going to be addressed. He said there is no guarantee of federal funding later and it should be done now.

Councilmember Mickelson asked if the federal funding would be lost if the project did not proceed with four lanes. Deputy Director Wright said the project with four lanes was what was presented to obtain the funding and the funding would have to be turned back in if the project was modified.

Councilmember Mickelson asked if safety could be addressed with three lanes instead of four and Ms. Wright said it would be safer than it is today, but not as safe as four lanes.

Councilmember Brownlee asked if there could be more discussion at the Council Retreat and Ms. Wright said the schedule could be met if it were delayed for two weeks.

Councilmember Campbell said he appreciated the discussion and thanked Ms. Wright for the information she had provided. Mr. Campbell made a motion to approve Item I and J and Councilmember Vogt seconded the motion.

Councilmember Bacon asked that as a courtesy to Councilmember Mickelson, there be a motion to table items I and J and the original motion was amended.

Motion by Bacon, seconded by Brownlee, to amend the motion and table items I and J, for two weeks. The motion failed by the following vote:

Yes: Brownlee, Mickelson, and Bacon

No: Campbell, McCoy, Vogt, and Copeland

Councilmember Brownlee asked for clarification regarding the difference between a substitute motion verses an amended motion.

City Attorney, Ron Shaver, addressed her questions and said he felt that was the intent of what Councilmember Bacon was attempting to do. Ms. Brownlee asked Mr. Shaver to provide more information at a later time.

Mayor Copeland asked the City Clerk to restate Councilmember Campbell's motion and called for a vote.

Motion by Campbell, seconded by Vogt, to approve Items I and J on the consent agenda. Motion carried by the following vote:

Yes: Campbell, McCoy, Bacon, Vogt, and Copeland

No: Brownlee, and Mickelson
