7. GENERAL ISSUES AND CONCERNS OF CITIZENS

Kate Guimbellot, an Olathe resident, spoke about the continued flooding in College Meadows.

Rayane Cook, an Olathe resident, spoke about the continued flooding in College Meadows.

J. Ryne Jackson, an Olathe resident, spoke about the continued flooding in College Meadows.

8. CONVENE FOR PLANNING SESSION

If report items are present, they have been prepared for informational purposes and will be accepted as presented. There will be no separate discussion unless a Councilmember requests that a report be removed and considered separately.

A. REPORTS

- 1.** Report on amending Unified Development Ordinance Section 18.50.190 pertaining to signs and Olathe Municipal Code 12.10.050 pertaining to signs in the public right-of-way.
Report accepted.
- 2.** Report on 2024 external financial audit and Annual Comprehensive Financial Report
Mayor Bacon asked for an explanation on the reason the report

was delayed.

Jamie Robichaud, Economy Director, explained that the delay was due to transitioning to the new Workday financial system as well as staff turnover.

B. DISCUSSION ITEMS

1. Discussion on the status of the Kansas Department of Transportation's (KDOT) Lone Elm & K-10 Interchange Project. Steve Rockers, KDOT Project Manager, and Josh Woolard with HNTB, provided a presentation to the Council.

Councilmember Essex asked why they had decided to do an interchange and not an overpass. Mr. Woolard said they believed an interchange would perform better to redistribute traffic. Ms. Essex asked about the financing for the project. Mr. Rockers said that Lenexa is paying 2/3 and KDOT 1/3.

Councilmember Schnoover said he believed not many people would like the project. He asked why the project is needed. Mr. Rockers said that it becomes a pressure relief valve. Mr. Schoonover asked how that overrides safety concerns. Mr. Rockers said they are aware of the concerns and they are working on finding reasonable solutions. He said they do believe the interchange is a safe improvement. Mr. Woolard said KDOT is working with the City to make improvements to the South of K-10. He said this is a priority of Lenexa and said they are bringing funds to the project but believes it will bring improvements to K-10. Mr. Schoonover reiterated that he doesn't believe this is needed and thought this project wouldn't move forward without both communities in agreement.

Steven Cross, the previous project manager for KDOT, said at one time there were discussions that they would not move forward without both cities agreeing. Mr. Cross said they were tasked with looking at the data for traffic and they believe the interchange would be a good idea. He said that the City does

not have to connect.

Councilmember Felter asked questions about the noise wall on the Lenexa side and not on the Olathe side. Mr. Woolard said there is criteria for qualifications to have a noise wall constructed. She also asked additional questions about the funding offered by KDOT and Mr. Woolard said he was not aware of what the financial discussions have been. Dr. Felter also asked about the timeline for other improvements on K-10 and K-7 and Mr. Woolard said he was unsure about the specific timing. Dr. Felter said she believed the highest priority should be to address the needs on K-10 and not build an interchange. Dr. Felter said the traffic by Olathe South and potential traffic at this location is not comparable.

Councilmember Vakas said he appreciated the design taking only a small amount of property. He asked if the City of Olathe could do nothing and Mr. Cross said yes, but recommended they connect the walking and biking trails. He then asked about other improvements and Mr. Cross said Claire Road was ruled out for changes. Mr. Vakas said that he believed that the larger lots on the South side were being discriminated against because they owned larger lots. Mr. Cross said the noise is bad, but noise walls are very expensive and that the lower density doesn't warrant it. Mr. Vakas said he believed noise walls should be a part of the conversation. Mr. Vakas confirmed that this interchange is being built in isolation from other K-10 improvements and Mr. Cross said yes. He said additional programs and needs are being discussed and studied.

Councilmember Vogt asked about the funds that are being allocated to this project. Mr. Cross said there could be funds from multiple sources, and at this time only design has been funded. Ms. Vogt asked questions about the surveys that had been sent to the communities and if their concerns were being addressed. She asked if the safety impact was being addressed or if they were just looking at the engineering. Mr.

Cross said they looked at all factors. Ms. Vogt said Olathe would like to have the connectivity but believes an overpass would do that but an interchange will create safety issues. She asked what would stop this from going forward as presented, and Mr. Cross said this is the approved design to move forward. Ms. Vogt asked about truck traffic and Mr. Cross said they have had discussions with Aldi and they do not believe truck traffic will have an affect. Ms. Vogt asked about cost to the City to create a bypass for truck traffic. Beth Wright, Infrastructure Deputy Director, said the latest estimate they have is approximately \$15,500,000 but it does not include a portion they believe KDOT should cover and they are continuing to negotiate with them. Ms. Vogt said she is disappointed and hopes that if it moves forward that it will be made as safe as possible.

Councilmember Gilmore said he is sure the Council's wishes have been made known and believes it is beneficial to Lenexa but not Olathe. He asked about no truck signs and Ms. Wright said it would take enforcement, but also didn't know if they would be allowed. Mr. Gilmore said maybe they should consider just not connecting.

Councilmember Schonnover asked who makes the funding decision. Mr. Rockers said if Lenexa comes forward with their portion then KDOT will move forward.

Mayor Bacon said he believes there is a lot of valid concerns. He said it could benefit Olathe down the road, but hopes safety concerns are addressed. He said he does believe it is important for the State to work with the City on this. He said he is disappointed that all the K-10 issues are being delayed. Mr. Cross said they looked at the project as a whole and tried to break it into smaller portions but couldn't make that happen with funding.

Councilmember Vogt said she believes there will be disruptions twice and would rather have them do it all at once.

9. ADDITIONAL ITEMS

Councilmember Vakas said he was happy to host the last Olathe Live concert and it was well attended. He said he is looking forward to the Olathe Art Fair this next weekend.

Councilmember Felter said it was great to attend the dedication of the Copeland Memorial Football Field.

Councilmember Vogt thanked solid waste workers for continuing to pick up even when there was road construction creating difficulties. She also asked about electric scooters and electric bikes and said she thinks it is becoming a big problem and thinks the Council should address it. She also said there are pictures of animals up for adoption on Nextdoor and hope it is facilitating more adoptions.

Councilmember Gilmore said there was great presentation from the fire department prior to council meeting.

Councilmember Essex said she wanted to add on to the comments about electric scooters and said it should be considered. She also had questions about the policy about the number of unrelated people in a rental home and asked staff to look into that.

Councilmember Schoonover said he too is concerned about electric scooters and bikes. He also thanked staff for all the hard work that went into the audit. He also acknowledged the Kansas teacher of the year, Rachel Marlow from Central Elementary. He thanked staff for facilitating the third grade program and their visits to City Hall.

Mayor Bacon thanked the participants in the Pickleball tournament for the Olathe Mayor's Children's Fund and they raised over \$7000. He also congratulated Chief DeGraffenreid for being awarded the Michael Copeland Civic Leadership award and Dr. Felter's daughter, Abby, for being awarded the Young Alum Award. He wished Michael Wilkes a happy birthday. Mayor Bacon also suggested the Council should address e-bike and scooter issues. He invited Chief DeGraffenreid to address the safety issues, specifically the need to wear helmets.

Chief DeGraffenreid said getting people to wear a helmet takes enforcement but also takes education.

Councilmember Felter said she thought there needed to be awareness brought to kids on how to travel on a scooter safely and understand traffic laws.

10. ADJOURNMENT

The meeting was adjourned at 9:32 P.M.
