

STAFF REPORT

Planning Commission Meeting: July 14, 2025

CP24-0001: Comprehensive Plan Update

Kim Hollingsworth, Planning and Development Manager

City staff will provide an overview of the ongoing Comprehensive Plan update, Elevate Olathe. The plan update kicked off in Summer 2024 with extensive public engagement and an analysis of existing conditions. Additional community outreach occurred in early Summer 2025 for areas of the City expected to experience increased new growth or redevelopment.

The Elevate Olathe Comprehensive Plan will provide a vision and strategies for land use, housing, economic development, transportation and infrastructure to guide future growth and development over the next 15 years. The Elevate Olathe Steering Committee guides the plan update and will review the draft plan prior to additional public meetings planned for early 2026.

This discussion will highlight public engagement results, key data trends, the project timeline and next steps in the process. No formal action of the Planning Commission will be taken at this time.
