Loose Equipment*	\$ 0.00
Options	\$ 0.00
Due Upon Delivery	\$ 1,688,893.66

Payment Terms

OPTION 1 PRICING IS NOT APPLICABLE WITH THIS SALE.
OPTION 2 PRICING IS BASED ON FULL PAYMENT BEING
MADE AT TIME OF PRODUCT DELIVERY.

Notes

Enclosed pricing is based on HGAC contract FS12-19.

This Quote (together with all attachments referenced herein), as provided by CONRAD FIRE EQUIPMENT, INC (Company) to the referenced Customer (Customer) includes the following terms and conditions and attached product specifications as hereby acknowledged by the Company and the Customer, which will become applicable to the sale related to this quote and effective upon the Company accepting the Customer's acknowledgment and approval of such sale. Acceptable forms of acknowledgment and approval shall be an official and properly authorized purchase order or supplemental contract between the parties; such acceptable forms must incorporate the referenced date and quote/bid number stated herein.

1. Specification Changes. Various state or federal regulatory agencies (e.g. NFPA, DOT, EPA) may require changes to the Specifications and/or the Product and in any such event any resulting cost increases incurred to comply therewith will be added to the Purchase Price to be paid by the Customer. In addition, any future drive train upgrades (engine, transmission, axles, etc.), or any other specification changes have not been calculated into our annual increases and will be provided at additional cost.
2. Commercial Chassis Pricing Changes. Pricing for commercial chassis provided by manufacturers other than Pierce (e.g., Kenworth, International, Peterbilt, etc.) may be subject to change subsequent to an order being placed as determined by the commercial chassis manufacturer. To the extent practicable, Company will document any such updated price for the Customer's approval before proceeding and provide an option to cancel the order.
3. Persistent Inflationary Environment. If the Producer Price Index of Components for Manufacturing [www.bls.gov Series ID: WPUID6112] ("PPI") has increased at a compounded annual growth rate of 5.0% or more between the month Pierce accepts our order ("Order Month") and a month 14 months prior to the then predicted Ready For Pickup date ("Evaluation Month"), then pricing may be updated in an amount equal to the increase in PPI over 5.0% for each year or fractional year between the Order Month and the Evaluation Month. To the extent this provision results in a price increase to the Customer for the order associated with this quote, the Company will notify the Customer in writing of such price increase for the Customer's approval before proceeding with the order; in lieu of proceeding with the order, the Customer may cancel the associated order without penalty by providing the Company written cancellation within 30-Days of receiving the price increase notice pursuant to this provision.
4. Payments. Pre-payment discounts are based on purchase price at time of order and are not subject to change. Manufacturing build time may change after an order is placed due to supply chain delays. All taxes, excises and levies that Company may be required to pay or collect for any reason shall be for the account of the Customer and shall be added to the Purchase Price. Delinquent payments shall be subject to a carrying charge of 1.5 percent per month or such lesser amount permitted by law. Company will not be required to accept payment other than as set forth in this Agreement. Company shall have and retain a purchase money security interest in all goods and products now or hereafter sold to the Customer by Company or any of its affiliated companies to secure payment of the Purchase Price for all such goods and products. In the event of nonpayment by the Customer of any debt, obligation or liability now or hereafter incurred or owing by the Customer to Company, Company shall have and may exercise all rights and remedies of a secured party under Article 9 of the Uniform Commercial Code (UCC) as adopted by the state of [KANSAS].
5. Cancellation/Termination. In the event this associated order is canceled or terminated by the Customer before completion for any reason other than that directly related to and allowed per the provisions of Paragraph 3 above, Company may charge a cancellation fee. The following charge schedule based on costs incurred may be applied: (a) 10% of the Purchase Price after order is accepted and entered by Company; (b) 20% of the Purchase Price after completion of approval drawings, and; (c) 30% of the Purchase Price upon any material requisition. The cancellation fee will increase accordingly as costs are incurred as the order progresses through engineering and into manufacturing. Company endeavors to mitigate any such costs through the sale of such Product to another purchaser; however, Customer shall remain liable for the difference between the Purchase Price and, if applicable, the sale price obtained by Company upon sale of the Product to another purchaser, plus any costs incurred by Company to conduct any such sale.
6. Delivery and Custody. Delivery of the Product is scheduled to be within the timeline specified herein following the Effective Date of this Agreement. The Customer is responsible for taking delivery of product directly from the Company and risk of loss transfers to the Customer upon an authorized Customer representative acknowledging product delivery. Payment shall be rendered according to the payment terms herein.
7. Governing Law and Jurisdiction. Without regard to any conflict of law provisions, this Agreement is to be governed by and under the laws of the state of KANSAS.
8. Entire Agreement. This Agreement shall be the exclusive agreement between the parties for the Product. Additional or different terms proposed by the Customer shall not be applicable, unless accepted in writing by Company's authorized representative. No change in, modification of, or revision of this Agreement shall be valid unless in writing and signed by Company's authorized representative.
9. Conflict. In the event of a conflict between the Customer Specifications and the Company Proposal, the Company Proposal shall control. In the event there is a conflict between the Company Proposal and this Agreement, the Company Proposal shall control.
