

Meet the Dogs:

Winston

Breed: Neutered Jack Russell/Schnauzer

Nicknames: Scruffleupagus/ old man dog

Age: Unknown estimated about 6 years.

Loves: Walks, car rides, bones

Olathe License: L18-018671 exp. 3/29/2019

About Winston: Winston was rescued by David from someone his son knew back in 2011. He is cautious but friendly and extremely afraid of everything around him (especially tape measures and garden shears) It is thought he suffered some form of trauma as a puppy. After working extensively with Winston, he is not nearly as fearful as he once was. He did not used to like other dogs and now he can play nicely with others.

Skyler

Breed: Spayed Lab/Rottweiler mix

Nicknames: Skye/ Sweet girl

Age: 3 years

Loves: Walks, treats, snuggles and car rides

Olathe License: L18-018670 exp. 3/29/2019

About Skyler: Received Skyler when she was a tiny puppy when the previous owners said she was 8 weeks old but she was obviously way younger. The vet estimated she was about 3-4 weeks old and she was covered with fleas when we rescued her. She is super sweet, gets along well with other dogs, almost never barks and is very attached to the family.

LuluBelle

Breed: Spayed Great Pyrenees/Border Collie mix

Nicknames: Lulu/ Lu

Age: 2.5 years

Loves: Walks, lounging with the family, snoozing on the sofa

Olathe License: L18-018669 exp. 3/29/2019

About LuluBelle: LuluBelle was about 8 weeks old and had never been inside when we got her. We brought Lulu home to help protect Winston from the Coyote who roams the waterworks land behind our house and eyes our fence eye-stalking the dogs. She is loyal and serious with a dignified demeanor, she is protective but never violent or aggressive. When the coyote is near she goes to the back door and stares at the woods then gives one long bark. Usually we will see the coyote within an hour after her bark, which gives us plenty of time to bring the dogs inside if they are out...

Sulley

Breed: Spayed Great Pyrenees/Blue Tick Coonhound mix

Nickname: Clowney dog

Age: 2 years

Loves: Everything but squirrels, all toys, opening jars and bottles

Olathe License: L18-018668 exp. 3/29/2019

About Sulley: Sulley was about 8 weeks when her owner died suddenly. Like Lulu, Sulley had never been inside when we got her. Sulley was covered with fleas, ticks and other bugs when we brought her home. It took about 2 weeks to get her fully cleaned up and she has been the worlds happiest dog ever since. With her large paws she learned quickly to open jars and cabinets so we learned early on to puppy proof everything that was not nailed down. Sulley will play with toys all day and to play with the rest of the pack.

Willow

Breed: Spayed Labrador/Boxer mix

Nickname: Baby dog

Age: 1 year

Loves: treats, snuggling, family, observing everything

Olathe License: L18-018663 exp. 3/26/2019

About Willow: Willow was only about 3 weeks when we rescued her. While shopping at a flea market in central Kansas for fencing, Cindy saw tiny baby Willow shivering in the corner of a playpen. It turns out the owners were trying to sell her for cigarette money. When Cindy challenged that her age was not the 8 weeks they claimed, and they saw the animal rescue volunteer shirt she was wearing, they offered to give her up. Willow's was put on a bottle diet since she was so little (She had been trying to chew solid food) and After a few weeks she began to thrive. Willow has not left any of our sides since that time. Extremely loving and still with that baby like quality, Willow at 68 pounds will still climb in our laps to cuddle if something spooks her.

Yogi-Bear Dog

Breed: Neutered Collie/Border Collie/Pyr mix

Nickname: Yogi, Chewbacca

Age: 1 year

Loves: hanging out outside, playing ball, walks

Olathe License: L18-018662 exp. 3/26/2019

About Yogi: This handsome guy was a foster fail. He was part of an oops litter and his owner was looking to rehome him. He came into our home and charmed us with his one-of-a-kind personality. Jabbering like Chewbacca and focused on what you are saying, his intelligence was evident early on. Yogi loves to play ball and like most collies, enjoys having a job, like teaching the pups how to walk properly

Nickname: Harlie & Ivy, puppies

Loves: hanging out together, chewing, playing in the yard, walks

About Harlie & Ivy: Inseparable littermates Harlie and Ivy were born to a dog that a co-worker of David's found on the side of the road. The pups lived outside and came to live with us after their littermate was eaten by a coyote. At the time we arrived both were under weight, had worms, and Harlie had 19 ticks, including one on her eyelid. Both puppies are very friendly and intelligent, but very timid and we are working to help them become less shy, particularly Harlie. Both Harlie and Ivy are now within normal weight range and enjoy playing outside but sleeping in their cozy crate.
