Renewables Direct

Businesses large and small benefit from renewables

Renewables Direct is a new program that allows commercial and industrial customers to offset a percentage of their energy usage through a renewable resource. This program is designed to provide large customers a path toward their sustainability goals with the abundant, affordable renewable energy of Kansas and Missouri.

Benefits to your business

- Renewable-sourced electricity at a price that reflects the cost of generation and delivery
- Cost-effective and customer friendly opportunities, all while providing clean energy to the grid
- The ability to claim a portion of the energy generated by the renewable source as their own and retain all of the renewable attributes
- Structure to add projects in the future to keep up with the growing appetite for renewable sources of our customers
- Hundreds of jobs are expected to be created for the construction and maintenance of the wind farm

Why renewables?

- Energy that fits your goals
- Fixed subscription charge
- Create new jobs
- Keep power local

A commitment to renewables is a commitment to economic and sustainability growth. In conjunction with our other economic tools, our Renewables Direct program can help attract and retain businesses in Kansas and Missouri. Our program offers cost-effective and customer friendly opportunities, all while providing clean energy to the grid. We recognize the role clean energy plays in attracting and retaining new business to the community, and we're here to help!

For more information about Evergy companies' renewable programs, please email Renewables@kcpl.com.

Evergy companies

Solar Subscription

Have you wanted to conveniently participate in solar without the maintenance, cost and hassle of installing panels on your roof? Or perhaps you just want to take the next step in reducing your carbon footprint and do more than recycle. Our Solar Subscription program will give you the opportunity to support solar growth throughout our community—no rooftop required!

Visit kcpl.com/solarsubscription or westarenergy.com/communitysolar to learn more.

Net Metering and Solar Rebates

Our Net Metering program encourages the use of solar technology, a renewable energy resource that has a positive impact on the planet. Customers who choose to be net metered will receive a one-for-one energy credit for excess energy that is exported to the grid. In addition, our rebate incentives in Missouri further encourage investment in solar energy by providing a rebate for customer-owned solar resources.

Visit kcpl.com/solar to learn more.

Westar Wind

Westar Wind is an easy, affordable means of supporting renewable energy and the development of wind power sources throughout Kansas. Choose to have more of your energy coming from wind resources, from 1–100% of your usage.

Visit westarenergy.com/wind to learn more.

Energy Efficiency

KCP&L currently offers an array of tools and programs to help you reduce your general energy usage, saving you money in your Missouri home or business.

Visit kcpl.com/energyefficiency to learn more.

Renewables Direct FAQ

What is Renewables Direct?

Renewables Direct is the program name for the Renewable Energy Rider Tariff (RER Tariff) approved by the Kansas Corporation Commission (KCC) in 2018. The program allows commercial and industrial customers to offset some or all of their energy usage through a renewable resource. This program is designed to provide large customers a path toward their sustainability goals with renewable energy. The RER tariff is available for viewing at kcpl.com/tariffs.

How do I sign up or receive more information?

Contact our Renewable Energy team at renewables@kcpl.com or your Customer Solutions Manager for more information. Your name will be added to a waiting list in the order it is received. This waiting list will be used to determine participation order once the renewable resource is ready. To enroll in the program, you will be required to complete a Participation Agreement.

What if the program receives more subscriptions than can be served by the given resource?

When the final resource is obtained, all customers on the waiting list will receive a portion of the available resource based on the proportion of their subscription request to the total resource size. Any unserved capacity associated with your subscription will remain on the waiting list for a future resource procurement or

if capacity becomes available. The wait list will be used to determine participation for the future resource. Contact our Renewable Energy team at renewables@kcpl.com or your Customer Solutions Manager for wait list information.

What are the program charges? Will this affect my demand charge?

The program is designed to replace the fuel factor charge on your bill, shown as the ECA, with a lower per-kWh price of no more than 2.0 cents per kWh known as the Renewable Participation Charge (RPC). The replacement will be based on the total number of kWh you use in a month and how many kWhs your subscription generates in the same month. If your share of the resource does not generate enough kWh to cover all of your energy usage in a month, then the remaining kWhs will be billed with the ECA instead of the RPC.

How will I be billed?

Each month, you will be billed at the Renewables Direct RPC rate of no more than 2.0 cents per kWh for your share of the renewable resource production, planned to be a wind facility for the initial offering. All remaining usage will be charged at the standard fuel factor rate.

Is it possible the cost of my bill will decrease because of my participation?

Yes, it is expected that the Renewable Participation Charge will be lower than

KCP&L's current fuel factor rate which would lead to costs savings for those participating in Renewables Direct.

Do I own the renewable resource?

No. KCP&L will procure a renewable resource through a Power Purchase Agreement (PPA) for a resource to serve those who subscribe to the program.

Is this program the same as a PPA?

No, but it is similar. The energy generated by this program will be added to KCP&L's energy mix and will not go directly to your location. However, by participating, you will receive a similar fixed-cost benefit like a PPA.

How much of the renewable resource can I subscribe to?

You can subscribe to offset up to 100% of your annual energy usage.

Where will the renewable resource be located?

The location is yet to be determined. KCP&L will pick a location that provides the most potential market value for the output from the resource while also reducing risk exposure.

How large will the resource be?

The resource initially will be sized appropriately to support subscribed capacity of at least 100 MW and up to 200 MW.

What is the minimum participation period?

Five-year participation is the minimum required. You may sign a 5, 10, 15 or 20-year Participation Agreement.

What if I want to reduce/increase my shares?

If you wish to adjust your shares due to increases or decreases in electric demand, you may request such adjustment in writing from KCP&L. You will be responsible for any additional cost incurred to facilitate the adjustment. Also, if your annual usage falls below your subscribed amount, KCP&L may at its sole discretion reduce your shares. Should capacity be available if you request to expand your subscription, KCP&L will amend your Participation Agreement. Any changes to your subscription will be made after notifying you.

What happens if I move to another location within the same KCP&L jurisdiction?

You may request transfer of your subscription, provided the total kWh of the subscribed amount is equal to or less than the new location's average annual historical usage. If it exceeds the allowed usage, the subscription may be adjusted down.

What if I move to another location within a different KCP&L jurisdiction?

Transfer of subscriptions between jurisdictions will not be allowed. Your subscription will be terminated, but to avoid fees you may, without penalty, transfer service to another account that is within the same KCP&L jurisdiction.

I have locations in both Kansas and Missouri. Is the program the same in both states? Can I participate in both states?

Although the program has different components between the states, you can participate through separate Participation Agreements, in both Kansas and Missouri if you meet the eligibility standards and there is capacity available.

Can I terminate my Participation Agreement before the expiration of the originally agreed to term?

Yes. You must first notify KCP&L in writing of your request to terminate. However, you also will be required to pay a Termination Fee to KCP&L for any associated costs and administration associated with the termination as outlined in the RER Tariff.

What happens at the end of the 20-year term?

At the end of the 20-year term, KCP&L will evaluate customer interest, resource availability, and market conditions to determine whether or not to procure a new resource to extend the program. If conditions do not support obtaining a new resource, then the program will terminate.

Do I own the renewable energy credits (RECs) for my portion of this resource?

No, but you have right to claim the environmental benefit of the RECs. The RECs produced by your portion of the resource will be retired by KCP&L on your behalf. If you desire ownership, the RECs may be transferred to you with all transfer costs borne by you.

Who gets to claim the environmental benefits of this project?

As a Renewables Direct participant, you can claim the full environmental benefits for your share of the program with the transfer/retirement of RECs.

Does participation in this program qualify me as a net metering or cogeneration customer?

No, this program is different from our net metering and other renewable programs.

Is the renewable energy I support through the Renewables Direct program delivered directly to my business?

No. The energy produced is not sent directly to your business, but is added into KCP&L's power system and will offset the traditional energy production associated with your usage.

Is there a calculator or spreadsheet I can use to help me determine my future expense?

No, but you can contact our Renewables Energy team at renewables@kcpl.com or your Customer Solutions Manager for rate calculation.

How will you decide to expand the program?

KCP&L must demonstrate 90% subscription of the resource for a minimum of two years before additional renewable subscriptions are offered. As this participation can be maintained and upon KCC approval, additional renewable resources may be added to the program.

KANSAS CITY POWER & LIGHT COMPANY

(Name of Issuing Utility)

Replacing Schedule _____ Sheet _____

Rate Areas No. 2 & 4

(Territory to which schedule is applicable)

which was filed _____

No supplement or separate understanding
shall modify the tariff as shown hereon.Sheet 1 of 4 Sheets**RENEWABLE ENERGY RIDER
Schedule RER****AVAILABILITY:**

This service is available at points on the Company's existing distribution facilities for customers wishing to be served with renewable energy resources.

APPLICABILITY:

Renewable Energy Rider Service is available for customers with an average monthly peak demand of greater than 200 kW accepting service under any tariff subject to the Energy Cost Adjustment (ECA).

Customer accounts receiving Unmetered, Lighting, Net Metering, or Time-of-Use Service are ineligible for this Program while participating in those service agreements. This schedule is not available to restricted rate schedules or backup, breakdown, standby, supplemental, short term, resale or shared electric service.

CHARACTER OF SERVICE:

Customers participating in this service will pay a fixed rate for the term of the agreement as a substitute for charges under the ECA for the renewable energy purchased. Any usage beyond the agreed amount under this service will be billed at the current authorized ECA rate. The monthly amount subscribed will be a fixed kW amount in 200 kW increments up to 1,000 kW, and in 500 kW increments thereafter.

The Company will work with the customer to determine an appropriate amount of renewable energy to place under contract. At the end of each calendar year, any excess generation will be credited to the customers' bill at 80% of the Renewable Participation Charge rate. Those customers with recurring excess generation may have their contracted amount reduced to better match their usage.

Alternating current, 60 hertz, at the voltage and phase of the Company's established transmission or distribution system most available to the service location.

(Territory to which schedule is applicable)

which was filed _____

No supplement or separate understanding
shall modify the tariff as shown hereon.Sheet 2 of 4 Sheets**RENEWABLE ENERGY RIDER
Schedule RER (Continued)****APPLICATION:**

Renewable Energy Rider Service shall be available on a first-come, first-served basis until the Company's allocation of renewable generating capacity and its associated renewable energy credits have been assigned. All customers receiving service under this schedule must enter into a written Application/Agreement for this service.

If customer interest exceeds a Purchase Power Agreement (PPA) limit, participation would be allocated to each customer proportional to their expressed interest. The limit will be re-evaluated if or when the PPA limit is reached and additional subscriptions resulting from a subsequent PPA will be made available at the sole discretion of the Company.

Customers applying, but not allowed to subscribe due to a PPA limit, will be placed on a waiting list and may be offered the opportunity to subscribe if subscription cancellations or forfeitures occur.

NET MONTHLY BILL:

Energy purchased under this service will be billed at the Renewable Participation Charge as a substitute for the ECA. Customer usage exceeding the customer selected volume of usage purchased through this tariff will be subject to the then current ECA.

Renewable Participation Charge Defined by Project (Renewable Resource Details section)

All charges, adjustments, and surcharges, except the ECA, will be billed at the standard rates applicable to the customer's rate class.

Sheet 3 of 4 Sheets

RENEWABLE ENERGY RIDER
Schedule RER (Continued)

DEFINITIONS AND CONDITIONS:

1. Service hereunder is subject to the Company's General Terms and Conditions as approved by the Kansas Corporation Commission and any modification subsequently approved.
2. All provisions of this rate schedule are subject to changes made by order of the regulatory authority having jurisdiction.
3. Agreements under this Program are available for enrollment for twenty-year terms. Lesser terms of five-year, ten-year, and fifteen-years will be allowed and cost premium added to the twenty-year rate. Customers subscribing to more than 20% of the renewable resource will be required to commit to a minimum term of ten years. At the end of a given Participation Agreement term, subscribers will be offered an option to renew their participation prior to offering available capacity to new customers.
4. Customers may maintain participation in this program when relocating facilities or service within the Company's territory.
 - A. The Customer without penalty may transfer service to another account that is within the Company's service territory and is either (i) currently not covered by an Participation Agreement, or (ii) is covered by a Participation Agreement for only a part of its eligible usage, in either case only to the extent the consumption at the new account under (i) or the eligible unsubscribed usage at an account that had already been receiving service under (ii) is sufficient to accommodate the transfer; or
 - B. At the Customer's written request, the Company will attempt to find another interested Customer that meets the Company's eligibility requirements and is willing to accept transfer of service (or that part which cannot be transferred to another Customer account) for the remainder of the term of the subscription at issue; or
 - C. If option A. or B. is not applicable as to some or all the Participation Agreement at issue, the Customer will continue to be obligated to pay for, or be eligible to receive, the monthly adjustment as to that part of the service that was not transferred; or
 - D. If option A. or B. is not applicable and in lieu of option C., the Customer may terminate service for the account at issue upon payment of the Termination Fee, which is as follows:
 - a) The average of the Customer's Monthly Renewable Adjustment for the preceding 12 months (or all preceding months, if less than 12) times the number of months remaining in the term; if this value is less than or equal to zero (e.g., a credit to Customer), then the Termination Fee is zero, and in no event shall the Customer receive a net credit from Company for terminating service under this Rider.
