Re: Hy-Vee Aisles Online Summary of Proposal

Mr. Moore:

The proposal being brought before you for approval is for a Hy-Vee Aisles Online kiosk. The Hy-Vee Aisles Online Program is an initiative to bring the shopping experience to the consumer, allowing them to shop anytime, anywhere. Hy-Vee is making it easy to shop for groceries online and simply pick-up the groceries at a later convenient time at the Aisles Online drive-thru kiosk.

This addition to the Hy-Vee Stores will serve as an accessory building to the main Food Store as the primary pick-up location for all Aisle Online orders. The 900 square foot kiosk will temporarily store groceries and other items that have been ordered online for customer drive thru pick up. Customers will not enter the kiosk building. Hy-Vee anticipates the hours of operation for Aisles Online drive-thru pick up to be 9am to 9pm seven days per week. The kiosk will be stocked by box truck two times per day from Hy-Vee's local distribution center, and not from the adjacent Food Store. The truck will unloaded by hand in the lane closest to kiosk entry and all customer orders will be concealed within containers. The limited amount of waste and recycling at the kiosk will be taken to the Food Store waste enclosures.

Sincerely,

A handwritten signature in blue ink, appearing to read "Luo Hamateyo".
