**Description:** This project will provide preliminary design of improvements to Santa Fe Street between Ridgeview Road and Mur-Len Road, including the interchange with I-35, to increase capacity and improve safety of the corridor.

**Justification:** This project was identified as the top priority for Transportation Master Plan as a near term priority project based on existing and future traffic volumes. This project is needed to address safety and capacity needs in the area as this corridor carries one of the highest volumes of traffic in the City and has a high crash rate.

**Comments:** The schedule for this project will be dependent upon receipt of federal funding. In order to put the City in a position to compete for Federal funding, the City must complete design of the project.
