Councilmember Mickelson thanked the Police Department.

Councilmember McCoy stated he was impressed with the Teen Council and how it will create strong leaders for the community.

Councilmember Brownlee is concerned about mature trees being removed in the right-of-way and would like policies looked at to try and save trees.

Councilmember Gilmore stated there would be a drug take back day event on April 24th from 10 AM - 2 PM.

Mayor Bacon said the Farmers' Market would be opening for the season. He also stated that Olathe libraries are going back to regular hours and that the Olathe pools will be open this year.

11. END OF TELEVISED SESSION

12. GENERAL ISSUES AND CONCERNS OF CITIZENS

13. CONVENE FOR PLANNING SESSION

Reports are prepared for informational purposes and will be accepted as presented. There will be no separate discussion unless a Councilmember requests that a report be removed and considered separately.

A. REPORTS

1. Report on the WTP2: Electrical Modifications and Improvements Project, PN 5-C-028-20, and the WTP2: Chemical Feed Modification Project, PN 5-C-026-20.

Report Accepted

2. Report on private street participation in the Olathe Street Preservation Program.

City Engineer, Nate Baldwin, presented a presentation to the Council outlining the proposed Olathe Street Preservation Program stating the purpose of the program was to aid HOAs on the upkeep of private streets through a program allowing them to apply for repairs to be made with 75% being their responsibility and 25% being city responsibility with a annual cap for the city of \$125,000.

Councilmember Vogt asked if the primary goal of this program was maintenance or to move the streets from private to public streets. Mr. Baldwin stated it would be up to the HOAs, but primary purpose is the maintenance of the roads.

Councilmember Campbell asked if the repairs would be bringing the roads to status quo or would it be working towards bringing them up to city standards. Mr. Baldwin stated it would depend on the type of work being done, but the main purpose would be maintenance of the streets.

Councilmember Gilmore asked for clarification on how the program would be paid for. Mr. Baldwin stated there would be an agreement laying out the payment process, but the agreement has not been drafted yet.

Mayor Bacon asked how the city would handle it if multiple requests were received where some projects may not be able to be funded. Mr. Baldwin stated the current thought process is to treat the applications like a grant process so the worst roads could be addressed first. Mayor Bacon also wants to make sure there is a process in place to make sure the HOAs have the funds available before the contract is completed.

Councilmember McCoy asked if the project would go out to bid. Mr. Baldwin stated the reasoning for the November deadline on this program is so the project(s) can be added to the package of projects for the city when it goes to bid.

Infrastructure Director, Mary Jaeger, added that most of the instances where the program would help are areas where the streets will probably never be a through street, but some relief is still needed to help them maintain the structural integrity of the road.

Councilmember Brownlee stated that some of the subdivisions may not have curbs and if the City was to bring them up to city standards it could be tremendously expensive. She added that the subdivisions may be ok with the cost and that she felt it was a good effort by the City to think in the direction the program was going. She felt it may need to be applied in different manners depending on the subdivisions.

Councilmember Vogt said she supports a pilot program to determine if needs are met or if the program needs to be expanded.

Councilmember Campbell is supportive of a pilot program but would like to see a report in one year.

Mayor Bacon said he was supportive of moving forward with a pilot program.
