SUMMARY:

Project No. 2-C-002-16 was created by Resolution No. 18-1068 on August 7, 2018.

This project is in place to meet the stormwater detention needs of properties within the Coffee Creek watershed, to reduce the risk of flooding of four (4) homes and to address flooding on Black Bob Road south of 167th Street. The project includes construction of two (2) earthen embankments and reinforced concrete box culverts on Coffee Creek along the future Brougham Drive alignment south of 167th Street and the future Lindenwood Drive alignment south of 167th Street. Attachment A is a map of the project area.

Property needs to be acquired on 3 tracts of land for the project.

This resolution is the first step in the eminent domain process (Attachment B).

To keep the project on schedule, land acquisition needs to be completed by February 28, 2020 to allow the project to be completed by late fall 2020.
