**STAFF CONTACT:** Mary Jaeger / Beth Wright

**SUBJECT:** Contract with Mayer Specialty Services, LLC for construction of the Storm Rehabilitation Improvements Project, PN 2-C-004-21.

### ITEM DESCRIPTION:

Consideration of bid and award of project to Mayer Specialty Services, LLC for construction of the Storm Rehabilitation Improvements Project, PN 2-C-004-21.

### SUMMARY:

The Storm Rehabilitation Improvements Project includes the repair and replacement of storm sewer corrugated metal pipes (CMP), inlets and boxes, and culverts. This year's project included the replacement of a 108" CMP under 125<sup>th</sup> Street at an estimated cost of \$338,000. Staff inspected the CMP and determined that it would be a candidate to apply a concrete lining to the pipe to extend the pipe's service life and avoid a costly replacement. This rehabilitation method also cuts down the total time on site by 75% and will not disturb other infrastructure.

After a competitive bid process, the City entered into a price agreement with Mayer Specialty Services, LLC for the lining of manholes and underground pipes. Utilizing this price agreement, Mayer will repair all rusted holes in the CMP under 125<sup>th</sup> Street and apply a fiber-reinforced cementitious mixture to the interior of the pipe for \$142,500.75.

This project has received Johnson County SMAC Program funds which will provide for 50% of construction costs up to a maximum of \$250,000

Construction is tentatively scheduled to occur in Spring 2021.

### FINANCIAL IMPACT:

Funding for the Storm Rehabilitation Improvements Project includes:

Olathe Stormwater Fund	\$500,000
<u>Johnson County SMP</u>	<u>\$250,000</u>
Total	\$750,000

---

**ACTION NEEDED:**

Approval of bid and award of project to Mayer Specialty Services, LLC for construction of the Storm Rehabilitation Improvements Project, PN 2-C-004-21.
